Product Designer specializing in 0→1 product launches and building scalable design systems for B2B SaaS and e-commerce platforms. Proven track record of translating complex user flows into intuitive interfaces and accelerating engineering delivery through centralized component libraries.

Jul 2022 – May 2026

Catalyst Tech

Malang, Indonesia

Product Designer

- Spearheaded the 0→1 development of two comprehensive design systems (GAIA for voila.id and Movement for Jamtangan.com), establishing 40+ reusable components that standardized the UI across all core platforms.
- Accelerated design scalability by creating a centralized component library, reducing design handoff time by 40%.
- Partnered seamlessly with cross-functional leadership (VP of Product, PMs, and Engineering) to align user-focused design strategies with agile delivery goals.

Mar 2022 – May 2022

Meets

Dubai, United Arab Emirates

UI/UX Designer (Contract)

- Collaborated with product managers to design responsive interfaces for various screen sizes and platforms.
- Created reusable, branded email templates that supported company-wide communication and marketing needs.

Apr 2021 – Mar 2022

Skymedia

Sidoarjo, Indonesia

UI/UX Designer

- Led an agile design team, defining product vision and strategy.
- Delivered multiple software house projects and coordinated directly with clients to gather and clarify requirements.
- Balanced speed, scalability, and design quality across various product deliveries.

Oct 2019 – Aug 2020

Tuupai

Surabaya , Indonesia

Product Designer

- Collaborated with marketing and product teams to improve user experience and boost onboarding effectiveness.
- Designed and delivered creative assets for marketing campaigns and various brand needs.
- Built a design system from scratch to improve consistency, speed, and collaboration across teams.

Jan 2016 – May 2017

Kaizen Jaya

Kediri, Indonesia

UI/UX Designer

- Created marketing visuals and assets to support product launches and promotions.
- Designed user flows, journeys, and UI for Android and iOS apps, ensuring smooth and intuitive experiences.
- Strengthened brand visibility and consistency through impactful digital design across platforms.
